01 — THE CHALLENGE

From mountain to sea, running along the river

180 kilometres on foot, from the sources of the Llobregat in Castellar de n'Hug to the river mouth in El Prat. Three days, 28 municipalities, one single route linking the Berguedà with the sea.

The challenge brings together runners with relatives living with type 1 diabetes, people who have type 1 diabetes themselves, and others who simply run in solidarity with the cause.

AN OPEN CHALLENGE

It's not an elite race: each stage is run as a group, and neighbours, runners and families can join on any stretch of the river. We build community, kilometre by kilometre.

02 – THE CAUSE

100% of donations go entirely to type 1 diabetes research.

AREDI researches type 1 diabetes from Catalonia. Every kilometre run turns into hours in the lab: real data for a real scientific cause.

The challenge's logistics –refreshments, transport, accommodation– are covered solely by sponsorships. Not a single donated euro goes to organisation costs.

Research funded through
AREDI, a non-profit association.

Type 1 diabetes research, today – in the lab and every day.

The official shirt

We have space reserved for sponsors' logos on the shirt worn by runners throughout the entire route.

Marquees and stands

They can be set up at the closing event in El Prat de Llobregat —a space of over 10,000 m² with a stage— or in any of the 28 participating municipalities.

The runner's bag

Sponsors can include their products as a gift inside the bag every participant receives.

05 – WHY SPONSOR US

Four reasons to join us

01

Visibility across the territory

Over 3 days the challenge crosses 28 municipalities along 180 km, with sustained digital presence before, during and after. Your brand travels the whole route, from the mountains to the sea.

02

Community potential

A project that generates content and conversation on social media: neighbours, runners, town councils and families following every stage and sharing every kilometre.

03

Authentic association

It's not a marketing stunt: it's a real story of sport, family and territory. Associating with it conveys a genuine commitment to a close-to-home cause.

04

Real scientific cause

100% of the funds raised go to AREDI to finance type 1 diabetes research. Every kilometre translates into hours in the lab and concrete progress.

06 – TAX ADVANTAGE

40% saving and secure handling

Your sponsorship is not a payment but a donation: it is processed as a donation regulated by the Patronage Law, and the State covers close to half of the corporate investment through Corporate Income Tax (IS).
